Agricultural Investment Promotion Agency (APIA)

Hall 4/4-161

Facts & Figures

Established in 1982, the Agricultural Investment Promotion Agency (APIA) is a Tunisian public institution run by the Ministry of Agriculture that was created to promote private investment in the fields of agriculture, fisheries, and related services.

Based on its dedicated expertise, APIA supports its members in successfully implementing their respective projects. In this context, APIA offers diverse services such as obtaining financial and tax benefits, assisting promoters in the compilation of investment and managerial records, matching Tunisian operators with potential foreign counterparts, and the participation in trade fairs and exhibitions in Tunisia and abroad.

Mission & Vision

APIA's vision is to improve the competitive advantages of the sector and to strengthen the industry's positive image in the world market. APIA very much welcomes the opportunity to introduce German and European importers to profitable new trade opportunities with Tunisian suppliers at the Tunisian Country Pavilion at BIOFACH 2020.

BULLA REGIA

Company presentation :

BULLA REGIA offers top-of-the-range products at competitive prices thanks to a close cooperation with its sister company “COGEHUILE”, which is one of the major olive oil exporters in bulk towards the European market, with an average of 20,000 tons olive oil exported per year including more than 2000 tons of organic olive oil. The ancient city of BULLA REGIA was known for millennia as one of the largest exporter of olive oil to the Roman Empire. Proud to have been nurtured in this part of the world, Tunisia, our mission is to bring you the most authentic extra virgin olive oil, you can trust.

Our historical extra virgin olive oil was previously the most appreciated by the Roman Empire and today it is still praised by their descendants. The secret behind that is the unusual combination of freshness, delicate taste and early harvest.

Our organic extra virgin olive oil comes from Chetoui monovarietal olives. It reflects the unique “terroir” of Northern Tunisia. A historical wild variety that gives a unique feeling of freshness : intense olive fruitiness enhanced by sweet notes of aromatic herbs.

Products

- Extra Virgin Olive Oil
- Organic Extra Virgin Olive Oil
- Flavored and Organic Flavored Olive Oil
- Sun dried Tomatoes
- Deglet Nour Dates

Zaafrania

Facts & Figures

“Zaafrania”, such was named this inspiring company, founded in 2017 by two women PhDs in plant biology, which embarked on the unique experience, a culture that has disappeared for centuries in Tunisia, that of producing the “red gold”: saffron, the world’s most expensive spice with innumerable health claims.

Mission & Vision

Producers of organic saffron 1st category according to the ISO 3632 standard, but not only... Zaafrania is committed to working in respect of the earth and women. It seems essential to reason the actual cultural practices, to stop land pollution and to feed people while respecting nature and women. That’s why Zaafrania saffron is manually harvested, sorted, processed and packaged only by rural women. Believing that their satisfaction and the improvement of their situation are essential not only to the well-being of people in rural communities in general but also essential to the promotion of economic productivity.
